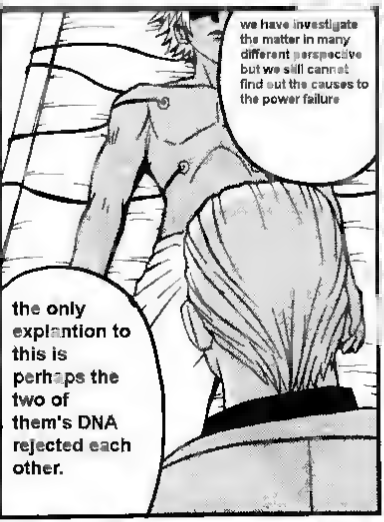
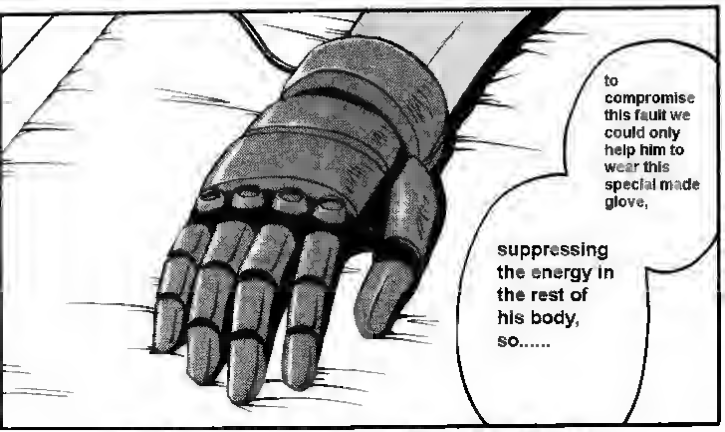
SIX MONTH LATER

六個月後.....



we have investigate the matter in many different perspective but we still cannot find out the causes to the power failure
the only explantion to this is perhaps the two of them's DNA rejected each other.



to compromise this fault we could only help him to wear this special made glove,
suppressing the energy in the rest of his body, so.....

we could only announce this DNA transIpant as a failure!!
failure, eh?
what about the progress of the mass duplication of Kyo?
the progress is proceeding steadily... no.1 and no.2 have already
mastered and shown the [STYLE] and its features!

all the other NESTS branches has already started the mass producing.
and if we include the expennece we gain from this transplant, mass producing [K] is no longer a problem
[PROJECT K] is almost halfway to completion.
..... so that would mean
as for the orginal subject (orginal Kyo) the HQ said he still has exploitable value so we will keep his body safely.....
matter regarding to [DIVINE STYLE_ZERO MODE] we already have converted the moves into data.
and handed in to the HQ for final analysis.
